Press release: for immediate release

See Kai Run® Children's Footwear Rejoins Soles4Souls With Donation of Over 10,000 Pairs of Shoes

In its continuing commitment to sharing its shoes with children who need them most, See Kai Run, popular manufacturer of the perfect first shoe for new walkers, is once again teaming up with Soles4Souls.

Soles4Soul, the international charity dedicated to providing free footwear to disadvantaged people around the world, will distribute over 10,000 pairs of See Kai Run shoes – with a retail value surpassing \$350,000.

“Since starting our relationship with Soles4Souls last December, our shoes have gone further than we ever imagined.” says founder Cause Haun. “They have reached children in poor areas of Honduras and will make their way to Sudan. We are so happy that we can help support little walkers across the globe.”

See Kai Run shoes are hand-crafted from supple sheepskin with padded collars and a breathable leather lining. Soles are constructed from extremely flexible TPR (thermoplastic rubber), allowing new walkers lots of freedom to move while protecting their feet on all kinds of terrain.

About See Kai Run

See Kai Run is a family-owned and operated business located outside of Seattle, Washington. The idea was born when owner Cause Haun was on a quest for the perfect first pair of shoes for her son, Kai. Unable to find shoes in fun styles that still promoted the healthy development of little feet, she created her own line of shoes along with her husband that satisfied all of these needs. In just two and half years, See Kai Run has seen sales expand from a few boutiques, mostly in the Seattle area, to stores all around the country and worldwide. See Kai Run shoes fit children from six months to three years. Please visit www.seekairun.com for additional information. Retail price starts at \$36.

About Soles4Souls

Soles4Souls facilitates the donation of shoes, which are used to aid the hurting worldwide. Everyone from shoe companies to retailers and individuals can donate footwear (both new and used). The Soles4Souls team has used the gift of shoes in the relief efforts for the Asian Tsunami and Hurricanes Katrina and Rita. More than 900,000 pairs were collected for these disasters. For more information, visit www.soles4souls.org.
